

Vibrating Screen Mesh

High-tensile spring steel screening for mining, quarrying and construction

2-100 mm
Aperture Range

0.9-10 mm
Wire Diameter

SPS/SS
Material Grades

OEM Fit
Metso, Propel, Sandvik

KEY APPLICATIONS

- Mining and quarrying — aggregate screening
- Crushing plants — particle classification
- Sand and gravel processing
- Cement and mineral processing
- Stone crusher OEM replacement

AVAILABLE MATERIALS

- | | |
|---------------------------|-----------------------|
| Spring Steel (SPS) | TATA / Usha Martin |
| SS 304 | Corrosion-resistant |
| SS 310 | High temperature |
| SS 316 | Chemical environments |
| GI | Cost-effective |

OEM COMPATIBILITY:

Metso | Puzzolana | Sandvik | Asia | Propel | Hailstone

40 Years of Expertise

1

Est. 1986. Deep application knowledge across mining, pharma, food, paper, chemical, construction.

Complete Product Range

2

One vendor for all wire mesh products. 10,000+ SKUs across 7 product categories.

Pan-India Delivery

3

5 branches + 2 factories. Same-day dispatch. <24hr delivery to 80% of industrial India.

Ready Stock + MTO

4

Standard items ex-stock. Custom specs with dedicated engineering support.

ISO 9001:2015 Certified

5

Documented processes, in-house testing, full material traceability.

Technical Partnership

6

Right spec for your application — reducing costly trial and error.
